## **DETAILED ACTION**

### ***Claim Objections***

Claims 7 and 9 are objected to because of the following informalities. In claim 7, lines 41-42, "determine coronal plane of pelvis" should be replaced with "determine the coronal plane of the pelvis" to correct a minor typographical error. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, lines 9-11: the functional recitation, "thereby providing additional information..... ball level" renders the claim vague and indefinite since it is not supported by recitation of adequate structure to accomplish the function.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Coker (US 6,214,004).

Art Unit: 3733

Coker discloses an alignment facilitator or frame including: a first rigid elongated member; a second rigid elongated member mounted in a perpendicular manner on the first rigid elongated member; first and second rollers or pads 226; a third pad or roller 224; and means for varying the position of the first and second pads, i.e., the slidable connection between the pads and the elongated members.

It is noted that claim containing a "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus" if the prior art apparatus teaches all the structural limitations of the claim. Ex parte Masham, 2 USPQ2d 1647 (Bd. Pat. App. & Inter. 1987).

Claims 3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Sienknecht (US 4,295,279).

Sienknecht disclose a level or "pelvis level" including a housing having openings, a bubble 22, and a bull's eye or cross hairs (Fig. 3, col. 3, lines 54-68 and col. 4, lines 1-3).

It is noted that claim containing a "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus" if the prior art apparatus teaches all the structural limitations of the claim. Ex parte Masham, 2 USPQ2d 1647 (Bd. Pat. App. & Inter. 1987).

### ***Response to Arguments***

Applicant's arguments submitted under "REMARKS" in the response filed on November 26, 2007 with respect to claims 3 and 5 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3733

***Allowable Subject Matter***

Claims 7 and 9 would be allowable if the minor objections made in this action are addressed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
